

Overwatch's New Robot Hero Looks Awesome--But Wait, Is That a Human Face?

From: Kotaku Mined: 2026-06-11 3 min read

Get ready, Overwatch fans! A brand-new hero is zooming into the game! Her name is Shion, and she's a robot, or '**Omnic**,' who leads a mysterious **clan**. She fights with two pistols and can even ride a motorcycle right into battle. How cool is that? But when players got a good look at her, something surprising popped up. Instead of a totally robotic face like other **Omnicos** (think of the round, metal faces of Zenyatta or Ramattra), Shion's face looks very human. And not just any human—she looks a lot like other female heroes in the game, like Kiriko and Juno. Some fans groaned, 'Oh no, not again!' Earlier this year, another hero named Anran got the same **complaint**: that Blizzard, the game's creator, keeps giving female characters very similar, pretty faces. Some people think it's so they can sell more cool outfits, or '**skins**,' for those heroes. But wait—maybe there's a story reason! In the Overwatch world, there's a lot of **tension** between humans and robots. Why would a powerful robot leader choose to look human? Could she be hiding something, or does she wish she were human? That would be a really interesting secret to uncover. Not everyone agrees she's a copycat, though. Some sharp-eyed fans pointed out that Shion's nose is actually different from the others. 'She has a different nose for once!' one fan posted happily. It's a tiny detail, but it shows people are looking super closely. Whether Shion's face is a clever story clue or just a style choice, she's already got everyone talking. And with her motorcycle and **dual pistols**, she's sure to shake up the game when she arrives next week. What do you think—cool robot, or too human?

Word Treasure

Omnic -- A race of robots in the Overwatch game world, some of whom are in conflict with humans.

dual pistols -- Two handguns, one held in each hand, used for fighting.

skins -- Different looks or outfits for a game character that players can collect or buy.

complaint -- When someone says they are unhappy or something is wrong.

tension -- A feeling of nervousness or anger between two groups that could lead to conflict.

clan -- A close group of people or robots, often like a family, that sticks together and follows a leader.

Background you need

Overwatch is a team-based video game made by Blizzard Entertainment, set in a future where robots called Omnics fight alongside and against humans.

Every few months, Blizzard adds a new hero with a unique story and abilities, which fans eagerly discuss online.

Sometimes character designs create big debates, like whether all female heroes look too similar.

Break it down

WHO: Shion, the new Omnic hero, and Overwatch fans discussing her design.

WHAT: Shion's reveal sparked both excitement for her motorcycle and dual pistols and complaints about her human-like face.

WHERE: In the Overwatch game and on social media where fans share reactions.

WHY: Because character design can suggest story secrets or be meant to sell skins, and players want variety.

Why it matters

Games are like stories where every detail matters; your favorite character's look can shape how you feel about the game and even start conversations about creativity and fairness.
