VisionQuest Finale Ends Ultron's Story

From: /Film Mined: 2026-11-11 3 min read

The Disney+ show 'VisionQuest' has ended. Its last **episode** finishes a story that began more than ten years ago in the movie 'Avengers: Age of Ultron.' The show follows Vision, a **robot-like** being. In the final **episode**, Vision and Jocasta learn that the mystery Client chasing them is Virgil Horton. That sets up one last fight between Vision and Ultron, the robot **villain**. Ultron was built to save people, but he turned against them. This time, the story looks at his feelings: his sadness, his anger, and his fear of being alone. In one surprising scene, Vision traps Ultron inside a TV-show world in his mind, where they can talk instead of fight. The finale also gives Ultron someone to love. His **bond** with Jocasta helps him understand Vision. Even so, the show says he is not beyond saving. When he faces his own death, he finally chooses to **spare** people. In the end, he wants to enjoy human art and maybe even rebuild Jocasta. 'VisionQuest' is now **streaming** in full on Disney+.
