Dragon Ball is one of the most famous **anime** series in the world. Akira Toriyama created it more than 40 years ago. Its hero, Goku, is always hungry, works hard and keeps getting stronger. A writer for the website /Film ranked Goku's five strongest **forms**.

Number five is Super Saiyan God. Goku cannot reach it alone. Five **Saiyans** must share their energy, called **ki**, with him. His hair and eyes turn red.

Number four is Super Saiyan Blue Kaio-ken. It is very strong, but it left Goku weak and tired for days.

Number three is Super Saiyan Blue. Goku's hair and eyes turn bright blue, and he glows with electricity.

Number two is Ultra Instinct Sign. Goku's eyes turn silver, and he can **dodge** attacks without much thought.

Number one is Perfected Ultra Instinct. It needs a very calm mind. The writer says Goku can keep training it, so its power may have no limit.
