Watch Polar Bears Live in Canada

From: Popular Science Mined: 2026-10-14 3 min read

Fat Bear Week in Alaska is over, but you can still watch bears online! Two groups, Explore.org and **Polar Bears** International, run eight live cameras in Churchill, Canada. Churchill is called the **polar bear** capital of the world.

In October and November, **polar bears** gather by Hudson Bay. They wait for the **sea ice** to freeze. When the ice is thick enough, they walk out onto it to hunt **seals**.

The cameras help scientists, too. In December 2025, scientists confirmed that a mother **polar bear** had **adopted** a cub that was not hers. In spring she had one cub with a tag. By fall, she had two cubs, but only one had a tag.

There is more to see. One camera rides on a moving hotel made of buggies linked like a train. At night, another camera shows the colorful **northern lights**. There is even a camera on a raven nest!

Word Treasure

polar bear -- A large white bear that lives in the icy Arctic.
sea ice -- Frozen ocean water that floats on top of the sea.
seals -- Ocean animals with flippers that polar bears hunt for food.
adopted -- Took in and cared for a baby that was not its own.
northern lights -- Colorful glowing lights that sometimes fill the night sky in the far north.

Background you need

Polar bears live in the cold Arctic and walk out on sea ice to hunt seals.

Near Hudson Bay in Canada, the ice melts in summer, so the bears wait on land until the water freezes again in the fall.

Break it down

WHO: Polar bears, plus the groups Explore.org and Polar Bears International
WHAT: Live cameras show bears waiting for the sea ice to freeze
WHERE: Churchill, Canada, by Hudson Bay
WHY: So people can watch the bears and scientists can learn about them

Why it matters

You can watch real wild polar bears from home and maybe spot something scientists have never seen.

Test what you remember

1. How many live cameras are there in Churchill?

- (A) One
- (B) Eight
- (C) Three
- (D) Twenty

2. What is Churchill called?

- (A) The polar bear capital of the world
- (B) The fish capital of the world
- (C) The coldest town ever
- (D) The home of Fat Bear Week

3. What are the polar bears waiting for?

- (A) Snow to melt
- (B) Visitors
- (C) The sea ice to freeze
- (D) Summer

4. What do the bears hunt on the ice?

- (A) Berries
- (B) Penguins
- (C) Rabbits
- (D) Seals

5. What did a mother polar bear do that surprised scientists?

- (A) She learned to swim
- (B) She adopted a cub that was not hers
- (C) She flew south
- (D) She built an igloo

6. What can you see on one camera at night?

- (A) A city
- (B) Fish jumping
- (C) The northern lights
- (D) Fireworks

Answer key (try the quiz first!): 1: B 2: A 3: C 4: D 5: B 6: C
